

Vocabulary learning in MFL

Quizlet (quizlet.com) is a free learning platform we use to enable students to learn the sheer amount of vocabulary required for a language GCSE.

Each student should have an account and be part of their teacher's class.

The expectation is that all students in KS4 spend **at least 30 minutes every week** learning the vocabulary on Quizlet as part of their homework. The required set of words will be explained by their teacher and set on EduLink.

One of the biggest barriers in a language exam is not understanding the vocabulary. It is imperative that students invest time in doing so.
