

NIA STUDENT VOICE

Student Voice Interviews

A chance to learn more about what our young people experience at NIA!

This week we interviewed Amira in Year 12

Question of the week:

Q: What have you achieved so far this year that makes you proud?

A: My skills in writing reports have improved.

Q: What is your highlight of the week?

A: Preparing for my exams.

Q: What are your goals for this academic year?

A: To achieve the highest grade possible in my A Level courses.

Q: What are your careers aspirations?

A: I would love to work in the medical field.

Q: Final message or piece of advice for your readers.

A: Do something you love.

A word from our Year 11 Student Leaders

Kris

Student Associate Assistant Head of School

My name is Kris and as one of the first members of NIA's student leadership team, and also one of the year 11's in the team, I will truly treasure the experience and memories that being part of this team has given me. I have been able to help the school with organising study leave for the year 11's, been able to become closer with teachers, make new friends within the team and, most importantly, help many concerns which students had whatever they were. As part of the Student Leadership Team, I was able to interview applicants for the assistant headteacher role within the school, give a tour of the school to some Year 6's as well as trainee teachers, attend the NIA6 question time which was very politically insightful, attend the annual youth summit and a youth conference centred around mental health; which I and everyone else in the team implemented to help ourselves and to help people around us who had any concerns regarding it. Overall, my time as part of NIA's Student Leadership Team will be treasured and helped me massively and I hope everyone within the school will see the team evolve and will love it just as much as I do.

Student Leadership Launch

At the end of this month, we are opening applications for next academic year's Student Leadership team.

If you are interested in applying you can get a head start by planning your applications now and noting down ideas that can help your application stand out from the crowd.
