Year 12 Work Experience Week

This week, our Year 12 students have been out gaining valuable experience in the world of work. From education and healthcare to business, law, and creative industries, students explored a range of sectors to help shape their future aspirations. It's been a fantastic opportunity for them to develop essential skills and gain insight into potential career paths.

Inspiring Talk from University of Northampton

Last week, we welcomed an external speaker from the University of Northampton to speak with our prospective sixth form students. The session offered valuable guidance on post-16 pathways, higher education options, and tips for making the most of sixth form life. Thank you to the University of Northampton for supporting our students as they prepare for the next stage of their journey.
